PROFESSIONAL SUMMARY

Results-driven Data Analyst with 1.6+ years of experience in data visualization, ETL processes, dynamic reporting, and advanced analytics using Python, SQL, Power BI, and Advanced Excel. Proven track record in operational analytics, KPI tracking, financial funnel optimization, and delivering a 12% conversion lift in lead-to-loan processes. Skilled in workflow automation, churn modeling, dynamic dashboard creation, and maintaining 99% data integrity. Immediately available for full-time, onsite positions in Bangalore.

TECHNICAL SKILLS

- **Analytics & BI Tools:** Power BI, Power BI Service, Tableau, Advanced Excel (Power Query, Power Pivot, Dynamic Arrays, INDEX/MATCH), Google Analytics (GA4)
- **Database & Languages:** SQL (MySQL, PostgreSQL, BigQuery, SQLite), Python (Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn), DAX
- **Methodologies & Concepts:** Exploratory Data Analysis (EDA), Data Pipelines (ETL), Cohort & Churn Analysis, Root Cause Analysis, Database Schema Design (3NF, Star Schema), Data Validation, Statistical Analysis

PROFESSIONAL EXPERIENCE

Operations Executive / Data Analyst | Vindhya E-Infomedia Pvt Ltd, Bangalore

July 2024 – January 2026

- Analytics & Business Optimization: Analyzed loan application funnels using Advanced Excel, SQL, and Power Query to identify conversion bottlenecks, driving a 12% lift in lead-to-loan conversion rates.
- Workflow Automation: Automated weekly executive reporting workflows using advanced dynamic formulas and queries, reducing manual task execution time by 6 hours per week.
- Data Quality & Governance: Designed and enforced daily data validation protocols across 10,000+ financial records, maintaining 99% data accuracy across enterprise tracking systems.
- Demographic & Segmentation Analytics: Profiled customer demographics using exploratory data analysis to inform targeted sales strategies and optimize core KPI performance.

DATA ANALYTICS PROJECTS

1. End-To-End Churn Analytics & Customer Intelligence | Python, Pandas, SQLite, EDA

Repository: github.com/Sathish29001/Data-Analysis-Churn-Analysis-Project

- Built an automated ETL pipeline integrating customer, subscription, and support data.
- Analyzed overall customer churn (28.57%) and identified a strong correlation (0.77) between support escalations and account termination.

2. General Store Transaction Database & Audit | MySQL, CTEs, Window Functions, 3NF

Repository Reference: [General Store Transaction Database & Audit Project]

- Modeled a 3NF relational database schema auditing $2.29M in retail transactions.
- Wrote complex SQL queries utilizing JOINS, CTEs, and Window Functions (DENSE_RANK, LAG/LEAD) to pinpoint top-grossing and high-margin SKUs.

3. Global Airbnb Performance & Market Analytics | Power BI, DAX, Star Schema Modeling

Repository Reference: [Global Airbnb Performance & Market Analytics Project]

- Developed an interactive Power BI dashboard evaluating 279K+ listings and 5.3M+ customer reviews across 10 global cities.
- Applied Star Schema modeling and custom DAX measures to analyze pricing trends and host reliability signals.

EDUCATION

- **Bachelor of Commerce (B.Com) - Business & Financial Analysis**
  SRN Adarsh College, Bangalore
- **Computer Science & Business Applications (CSBA)**
  SRN Adarsh College, Bangalore

CERTIFICATIONS & UPSKILLING

1. Data Analyst Professional Certification & Project | Besant Technologies | Issued Oct 2026

- Completed intensive coursework in SQL, Python, Power BI, and Relational Database Architecture; mastered ETL pipelines and advanced DAX measures.

2. Professional Certificate in Google Data Analytics | Coursera | Issued Jan 2026

- Completed an 8-course series covering spreadsheets, SQL, Tableau, and R for end-to-end data processing and analytics.

3. Google Data Analytics with Python Certification | Coursera | Issued Mar 2026

- Completed a 6-course series focusing on Python programming, NumPy, Pandas, Matplotlib, and Jupyter Notebooks.

Languages Spoken: *English, Tamil, Telugu, Hindi, Kannada*
