PROFESSIONAL SUMMARY:

Operations & Data Analyst with 1.6+ years of hands-on experience specializing in Excel, SQL, Python, and Power BI. Proven track record in operational analytics, tracking key business KPIs, and optimizing financial funnels—including achieving a 12% conversion lift in lead-to-loan processes. Expert at automating workflows, running cohort analyses, and maintaining 99% data accuracy across enterprise datasets. Immediately available for onsite roles in Bangalore.

TECHNICAL SKILLS:

- **Analytics & BI Tools:** Power BI, Power BI Service, Tableau Desktop, Advanced Excel (Power Query, Power Pivot, Dynamic Arrays, INDEX/MATCH), GA4
- **Database & Languages:** SQL (MySQL Workbench, PostgreSQL, BigQuery, SQLite), Python (Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn), DAX
- **Methodologies & Core Skills:** Statistics, Machine Learning (Scikit-learn), Exploratory Data Analysis (EDA), Relational Database Schema Design (3NF, Star Schema), ETL Pipelines, Cohort & Churn Analytics, Root Cause Analysis

PROFESSIONAL EXPERIENCE:

Operations Executive| Vindhya E-Infomedia Pvt Ltd, Bangalore *(July 2024 – January 2026)*

- Modeled loan application funnel metrics using Advanced Excel and Power Query, analyzing drop-off trends to drive a 12% improvement in lead-to-loan conversion rates.
- Automated weekly reporting workflows with dynamic Excel formulas (INDEX/MATCH, Dynamic Arrays), cutting manual reporting time by 6 hours every week.
- Enforced daily data validation protocols across thousands of financial records to secure 99% data accuracy for executive tracking sheets.
- Profiled high-performing customer demographics to support sales targeting and business performance metrics.

DATA ANALYTICS PROJECTS:

1. **End-To-End Churn Analytics & Customer Intelligence** | *Python, Pandas, SQLite*

   GitHub: **github.com/Sathish29001/Data-Anlaysis-Churn-Analysis-Project**

   - Engineered an automated ETL data pipeline merging customer, subscription, and support schemas; calculated a 28.57% overall churn rate and isolated a 0.77 correlation between support escalations and customer churn.

2. **General Store Transaction Database & Audit** | *MySQL Workbench, CTEs, Window Functions*

LinkedIn: **https://www.linkedin.com/General Store Transaction Database & Audit**

- Built a production-ready 3NF MySQL relational schema auditing $2.29M in retail gross sales, authored optimized SQL queries leveraging JOINS, CTEs, and Window Functions (DENSE_RANK, LAG/LEAD) to isolate high-margin SKUs.

3. **Global Airbnb Performance & Market Analytics** | *Power BI, DAX, Star Schema*

LinkedIn: **https://www.linkedin.com/Global Airbnb Performance & Market Analytics**

- Built an enterprise Power BI dashboard analyzing 279K+ listings and 5.3M+ customer reviews using star schema modeling and dynamic DAX measures to evaluate pricing variances and host trust signals across 10 global cities.

EDUCATION:

- **Bachelor of Commerce (B.Com) – Business & Financial Analysis** | SRN Adarsh College, Bangalore
- **Computer Science & Business Applications (CSBA)** | SRN Adarsh College, Bangalore

UPSKILLING & CONTINUOUS LEARNING:*(Self-paced technical mastery & professional accreditations)*

1. **Data Analyst Professional Certification & Project** | Besant Technologies

- *Project:* Completed intensive coursework in SQL, Python, Power BI, and Relational Database Architecture.
- *Certification:* Comprehensive mastery of relational database architecture, ETL pipelines, Power BI, and advanced DAX measures.

2. **Professional Certificate in Google Data Analytics** | Coursera

- *Certification:* Completed 8-course series covering spreadsheets, SQL, Tableau, and R for end-to-end data processing and analytics.

3. **Google Data Analytics with Python Certification** | Coursera

- *Certification:* Completed a 6-course series focusing on Python programming, NumPy, Pandas, Matplotlib, and Jupyter Notebooks.
